

PANEL DOORS

K2 Panel doors are aluminum clad and capped door leaf which is a 100% composite door that will not bow, rust or rot.

K2 Panel doors are an extremely tough and durable door ideal for exterior and medium care hygiene areas. We believe that quality and trust should never be compromised. Working with a professional is essential, and with over 20 years experience and a real focus on customer satisfaction, you can trust K2 Doors to deliver.

Applications

- Exterior Doors
- Egress Doors
- Warehouses
- Retail Shops
- Security
- Plant Rooms

FINISH

K2 Panel doors have a 4mm composite aluminum door skin to each face. They are extremely durable and have high-quality polyester paint finish on the door leaf face. This finish offers outstanding colour and gloss retention. The door leaf is then sealed and capped off with a powder coated aluminum capping with no visible fixings.

Core

The core is made of Inorganic closed cell structured core that is 100% waterproof and is insensitive to moisture and rot.

Size

All our K2 Panel doors are custom made, from small 200mm x 200mm access hatches to large 3600mm x 1500mm door leafs.

Durability

K2 panel doors are some of the toughest and most durable doors in the market. These doors are perfect for exterior situations and areas where security is needed

Full Service

Here at K2 Doors, we stand by our service and that's why our clients keep coming back to us. We can help you with the design process right through to the installation of your doors by our fully trained and experienced team.

PANEL DOORS

K2 doors are New Zealand made, and we know how the building industry operates and how rapid changes can occur when onsite. If required we can assist in a matter of days and produce extra frames and doors to complete your project.

Frame Profiles

K2 doors offer over 30 different stainless steel frames profiles. If we don't have a profile that suits your requirements we can custom make one for you. We can offer other options which include aluminum, powder coated steel or timber.

Door Design

The team at K2 Doors have been designing industry-leading doors for 20 years. We understand that every job is unique and your requirements may be different from other projects, that's where our experience and knowledge can assist you with coming up with the correct solution. Our service includes going through every detail from frames to door leafs hardware, and installation to ensure we cover everything you require for your project.

Hardware

At K2 Doors we use only the highest quality hardware. We can fit hardware in the factory or onsite. From full stainless steel hardware to door grilles and door seals.

Glazing

We can offer single glazed vision panels or double/triple glazed flush panel options. We can use either glass or polycarbonate.
